Projects

- Portfolio Website: anthonylangdonportfolio.netlify.app – Built a responsive personal portfolio using React and deployed on GitHub Pages.
- Weather Dashboard Website: my-weather-dashboard-jh5e.onrender.com – Developed a weather 5 day forecast site that saves the city you look for future reference.
- Project Buddy: project-buddy-9qv7.onrender.com – A full-stack application designed to help users plan, budget, and manage DIY or construction projects. It features a chatbot assistant powered by OpenAI, material and budget tracking, project checklists, and more. Built with a TypeScript/React frontend and a Node/Express/MongoDB backend.

Professional Experience
